

IVANS LIME™ Solutions

Connecting providers to Medicare, Medicaid & Commercial payers

Over the last decade, the manner in which the healthcare industry operates has changed significantly. There have been rising costs across Commercial plans and government programs, combined with rate cuts, heightened expectations resulting from major advancements in technology, and increased standards and regulations.

IVANS understands that having visibility and control over your revenue is more important than ever. The IVANS LIME Health Information Exchange platform combines a suite of products that streamlines the entire eligibility and claims workflow to help healthcare providers increase cash flow, reduce operating costs, and lower payment risk.

The IVANS Solution

Through the IVANS LIME Portal, our easy-to-use web site, we simplify health information exchange for hospitals, physicians, home health, hospice, skilled nursing and durable medical equipment (DME) suppliers by providing them with a single user-interface to access multiple payers and applications for checking patient eligibility, processing claims, and tracking payment. The world of healthcare is big - let us help you stay connected.

Commercial Payer Solutions:

Connect to over 4,000 commercial payers to check eligibility, conduct individual or batch claims transactions, and electronic remittance advice download.

Medicaid Solutions:

Access to virtually all states nationwide to process Medicaid claims and electronic remittance advice download - all from one, easy-to-use web application.

Medicare Solutions:

Secure, direct access to Medicare – no matter what type of provider you are, connect to all of your Medicare contractors to check patient eligibility, claims processing, and electronic remittance advice download.

Accelerated Access to the Entire Claims Workflow

IVANS LIME Portal

Provides an easy-to-use, secure web interface that links you to the entire claims workflow.

Service Features

- **One-stop site** – Connecting you to Medicare, Medicaid, and Commercial systems for DDE, PPTN, CEDI and FTP batch claims processing
- **User-friendly interface** – Providing an integrated web solution to access applications, print screens and manage connections online
- **Comprehensive claims workflow support** – Linking you to a range of transactions and multiple contractors and payers
- **Experienced support** – Assisting you via phone, live chat or email with questions regarding CMS applications, billing and accessing CMS throughout the day

Key Benefits

- **Increased cash flow** – By accelerating your claims processing through a single, easy-to-use connection
- **Improved productivity** – By streamlining your entire claims workflow to free up more staff time
- **Reduced risk** – By providing greater visibility into beneficiary eligibility and claims status to ensure you are reimbursed for the services you provide
- **Peace of mind** – From using a reliable and secure solution that is backed by IVANS knowledgeable and accessible customer support

IVANS LIME Connectivity Options

To meet the diverse technical needs of the healthcare provider community, IVANS offers a suite of connectivity solutions for accessing Medicare, Medicaid, and Commercial payer networks:

IVANS LIME Broadband

Allows you to take advantage of your existing high-speed Internet access to connect 1 to 25 users directly to Medicare, Medicaid, and Commercial contractors.

IVANS LIME Direct

Establishes a secure, site-to-site virtual private network (VPN), using your facility's existing Internet connection and VPN hardware, to provide access for 25 or more users.

IVANS Dedicated Circuit

Ideal for organizations that need a point-to-point connection to support a high volume of claims transactions.

Stress-Free Solutions

We understand that solutions are built on innovation, security and flexibility to improve the delivery of healthcare. IVANS can serve as your trusted partner for claims submission, so you can focus on what matters most...your patients.
